

Romanian Orienteering Federation
Cluj County Youth and Sport Directorate
Transilva S.C.
Welcome you to

Event programme:

- Saturday, 25th of May, **11 h**: - first start in the **Middle Distance** race:
Transylvania Open – race 1,
- Sunday, 26th of May, **10 h**: - first start in the **Long Distance** race:
Transylvania Open – race 2.
- Sunday, 26th of May, **13:30 h**: - prize-giving ceremony **Transylvania Open**

Registration - event secretariat (**finish area**):

- Saturday, 25th of May, **09-11 h** (Pădureni - GPS **46.8630, 23.6000**)
Sunday, 26th of May, **08-09 h** (Pădureni - GPS **46.8630, 23.6000**)

Attention!

- Users of Romanian National Roads must buy vignette called “**Rovinieta**”. Please visit www.roviniete.ro for more information. Crossing the Romanian state-border you can buy it at filling stations, via SMS (Orange, Vodafone Digi Mobil: call-number 7500) or online (www.roviniete.ro). In case of a passenger car the minimum period is 7 days and costs 3 €.

Event centre: Each day is situated close to the Parking area. Distances, GPS coordinates appear at Technical Data. **Access to the events:** look at the map on www.transilva.ro.

Parking is organized in market spots. Access is one-way. Park in 4 rows slightly obliquely, to facilitate exit.

Keeping clean is mandatory. Please take your trash.

Smoking and lighting a fire is FORBIDDEN in all area connected with the competition.

Terrain:

Hilly, many contour details; steep valleys, deciduous and coniferous forests, open lands; variable runnability and visibility.

Because of the high complexity of the terrain, in order to show significant contour details, in some cases are used two form lines .

On the terrain are a lot of fox holes. Only the more significant are shown on the map.

Clothing for all races:

Due to high stinging nettle and other vegetation, whole body covered clothing is recommended. Protection against **ticks** and **mosquitoes** is recommended. Tick-borne Encephalitis vaccination is recommended.

Course information:

The connection lines make multiple loops on the longer distances. They may cross each other or pass through control. The lines were interrupted in these parts. Take care of the correct order of control points! There are a large number of control points on the field.

Maps: Take care at the scale! The scale of the maps:

Race 1 (MD) 1: 7.500/5m

Race 2 (LD) 1: 10.000/5m

Those, who have **1: 7.500/5m** scale are specified at **Technical Data**.

The courses for **M21E, W21E, M40** categories are **printed on two sides** of the paper (ex: first part is **M21E-a** and the second one is **M21E-b**).

Each day the maps are printed on waterproof paper. They have **A4**format.

The **control descriptions** are printed on the map. **Additional control descriptions** are available at start area.

Control system: The electronic SportIdent **AIR+** system is used. There is confetti at each control, in order to mark the place if the electronic device disappears.

Additional **Marked routes:**

The courses for the 10 years categories have **white-red** (plastic) marked routes.

There are **white-blue** (plastic) markings from the „**Event center**” (EC) to the „**Start**”.

Race1: There are **yellow/orange** marked routes from the "**Finish**" to „**Event center**”(EC)
Distances appear at Technical Data.

Refreshment points: only in the Finish. There are no refreshments at the „**Start**” area.

On the race **LD** water is provided in place marked on the map.

No buffet and no showers in the Event Centre area.

First aid: only in the Event Centre area.

Toilets: There will be toilets next to the **Event Centre area**.

Start procedure: The start-lists and additional control descriptions will be available in the start area. The organizers don't provide materials for the competitors to fix the control descriptions. The organizers don't provide the transport of the clothes and bags from the “**Start**” to the “**Event Centre**” area.

Check-in to the Start: Competitors must check-in two minutes before their start time. There are consecutive start boxes. The runner reports oneself when the first box event's clock shows his start-time from the start-list. In the first box (1 minute) the organizer will verify the number of SI-card and the start-time, the runner makes the **CLEAR** and **CHECK** operations of the SI-card. SIAC activation is done through **CHECK**. The activation verification is done through **SIAC Test**.

The **start time** is given by the **START** station device, when the competitor puts in his/her SI-card. The map is picked up by the competitor after the **START**. The competitor is responsible for picking up the right map for his/her category. It is mandatory to follow the marked route to the start point which is indicated by a control flag on the terrain and by the triangle on the map.

Finish area: Introducing the SI-card in **FINISH** station is required.

Race1: The **FINISH** station is not in the Event Center. Follow the **yellow/orange** marked route to the Event Centre (800 m/60m). SI-card reading is in Event Centre.

From the „**Finish**” to the officials' desk to download the SI-card, competitors will walk. Don't leave the officials' desk if there is any unresolved problem. Competition maps will be not collected after the races. Please, respect **FAIR PLAY!**

All runners are required to download the SI-card in Event Centre even if they did not finish the course, otherwise they will support the cost of seeking action.

Removing of controls begins at:

MD: **14:00** ; LD : **14:00**

Prize-giving Ceremony in the **Finish area:**

Sunday, 26th of May, **13:30 h**

- For the first three placed runners in **Transylvania Open 2024 -ed. 23** (combined time results of 2 days) - prizes from **TranSilva Sport Club**.

**Competitors take part in the competition on their own responsibility.
Medical insurance is the competitors' responsibility.**

All competitors accept the rules and responsibilities specified in this Bulletin with their registration.
